Dear Harold:

I always look forward to hearing from you, and I learn something about the assassination in all of your correspondence. I have referred a bunch of people to you, telling them that you know more about it than I do.

I hope your health has continued to steadily improve since your open heart surgery. I'm glad you discovered the sleep disturbance problem. That was very interesting. Take care, Harold, and good luck to you.

Your friend,

GEARY, PORTER & WEST, P.C.
